DETAILED ACTION

Election/Restrictions

Newly submitted claims 26-38 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly added claims contain new subject matters, i.e., a method for performing file management upon a group of entertainment media files, maintaining a user data, store containing data about a user, identify at least one specific file from the group of entertainment media files... which directed to class 707 Database and File management, or Data Structure, or File and database maintenance.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 26-38 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 12/02/2003 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03).

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 25-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The newly added limitations in claims 25, 26, 35 and 36 contain subject matter which was not described in the specification, for example limitations in claim 25, "...to extract first information about...", "based on said first information, extracting second information from the user data store", "using said first and second information to identify...", "performing a management operation upon said specific file";

Limitations in claim 26, "...based on said first information, extracting third information from said program data store; and using said third information along with said first and second information to identify at least one specific file...";

Limitation in claims 35, "... that contains said first information" and

Limitation in claim 36, "...that expands upon said first information" in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
